## Reinforcing Our Commitment to Our Communities

One of the things that Digestive Health Specialists is most proud of is that we have clinics and procedure centers in various cities across the Piedmont-Triad. We understand the importance of being in the community and the convenience of having care close to home.

Being at these locations also helps us understand our patients and we are better able to help them. Our physicians and our staff live in the communities they service and are proud to provide exceptional care to their friends and neighbors. That is why the slogan at Digestive Health

Specialists is "Caring for you, Close to home".

To reinforce this commitment to the communities we serve, we want to introduce you to our new logos, highlighting what makes each of these areas special.

Since our providers enjoy being a part of these communities, we took a little time to get their thoughts about what they like about serving the

cities and towns of Advance, Kernersville, King, Thomasville, and Winston-Salem. Do you want to know what they said? Visit the link to hear their thoughts.

**New Look, Same Exceptional Care**

## Our Advance Office is NOW TANGLEWOOD!

Our Advance office has gone through a name change. It will now be referred to as Digestive Health Specialists at Tanglewood. But even though this office has

a new name and new logo, our patients can expect the same exceptional care they have always received.

**Why did we see it necessary to make the change?**

Dr. Netherland explains on the video in the link below:

**Advance is now called Tanglewood**

  - Crohn's Disease
  - Diarrhea
  - GERD
  - Hemorrhoids
  - Hepatitis
  - Irritable Bowel Syndrome
  - Liver Cirrhosis
  - Ulcerative Colitis
- And More

## Constipation: Uncomfortable, but Important

Did you know that 16% of all adults and 33% of adults 60 years of age and over suffer from constipation? This is a common issue. That is why Dr. Apsara Prasad dedicated the September blog to help understand what constipation is and isn't.

She answers important questions on this condition, such as:

- What is normal?
- What causes constipation?
- What factors contribute to constipation?
- When should you go see a doctor?

We hope this blog helps both patients and providers open up what might be an awkward conversation. Read the blog in the blog section of our website; it is titled

### [Constipation: An Uncomfortable but Important Topic](#)

## Providers Move Locations

Last week we introduced Dr. Frank Senatore and we mentioned he was going to serve the Thomasville and Tanglewood offices. We made an adjustment and he will now be working out of **Thomasville and Winston-Salem**. Since he speaks Spanish, we know this will greatly benefit both locations.

We are also happy to announce that Dr. Akdamar will now also be serving the **Tanglewood** office.

He looks forward to getting to know the community in Davie County and beyond.

*As a reminder, we will be closed on Monday, September 7, 2020 in observance of Labor Day.*
